Spring Bling

The warm weather is here. And Asprey's Maxi Chaos collection is all the craze in the rays! Originally inspired by their Precious and Diamond line of the same name—featuring round and oval stones in a “chaotic” arrangement—this bevy of baubles is bolder and set with semiprecious stones.

Are your ears ringing? They could be singing—in a pair of Chaos blue topaz, iolite, and 18kt white gold earrings (\$5,500). A chic chignon, a couture creation and a pair of these sparklers—can you say “Cinderella”?
